## “21<sup>st</sup> Century Learning”

Education has changed significantly in the last two decades, no longer is it time and place specific. In a sense the classroom is wherever you want it to be — in a school, at home, on vacation or in a library. On-line learning has proven to be a means for a young man or woman to experience a quality education without stepping foot in a traditional classroom.

We, at Grace Academy, believe that providing a dynamic online learning community assists you, the parent, in determining the best educational course for your child. The opportunities we provide range from fulltime on-line home schooling to blended learning, a program that combines the traditional with the new. Indeed there is no doubt that a developed expertise in on-line learning is going to enhance your child’s competence, no matter the career path to which he or she is called.
